KILLED A BURGLAR.

San Francisco Barber's Struggle With a Desperado.

San Francisco, Feb. 1.—Edward H. Hall, a barber, shot and killed a burglar here tonight in a lodging house at 123 Taylor street. Hall, who lives in the house, went to his room, which was opened by one of two men who were engaged in rifling the apartment. The burglar instantly drew a revolver, placed its muzzle against Hall's body and pulled the trigger. The cartridge failed to explode and Hall grappled with the man. A desperate struggle ensued, resulting in Hall getting possession of the pistol. The other burglar then rushed toward him in an attempt to escape. Hall fired at him as he reached the door. The bullet entered his brain and he crashed headlong down the stairs, falling dead at the bottom. Not until then did Hall release his grip on the other man, who at once took flight, jumping over the dead body of his companion, and reached the street. He was captured by a citizen a block away from the scene of the tragedy. He was identified as Fred Keeler, alias Wilson, who has served terms in the house of correction. He refused to give the name of his dead companion.

TO INTERCEPT ANDRADE.

Venezuelan Gunboat Goes to Head Off the Supply Party.

San Juan de Porto Rico, Feb. 1.—It is reported here that the Venezuelan gunboat Restaurador, formerly George Gould's yacht Atlanta, is on her way from Brooklyn with orders from President Castro, to intercept in the Caribbean sea, Senor Andrade's filibustering expedition. Passengers on board the "Red D" line steamer Philadelphi, from La Guayra, January 2, which left for New York today, asserted that Caracas was in a state of suppressed excitement when the steamer left Venezuelan waters; that President Castro's troops had defeated the insurgent troops of Cuernavaca, and that a comparatively unimportant mutiny among the troops in the barracks at Caracas had been quelled. They also reported that the Venezuelan congress would meet February 20 to legalize the act of President Castro, who, since the expedition of Andrade, has been a dictator, acting without electoral sanction. It was further gathered from the passengers that a general uprising might take place about the time of the assembling of congress, but that the Nationalist party, a prominent organization in Venezuela, had offered its services to Castro to maintain peace.

Held Up by Drunken Yaquis.

Tucson, Ariz., Feb. 1.—La Cananea, the mining camp of the Green Consolidated Mining Company, in Sonora, was held for three days by a band of Yaqui Indians, and the people of the camp were at the mercy of the Indians. It seems that a large number of the Indians who are employed at the camp got drunk when paid and purchased all the mescal in the camp. The Mexican police were driven from the camp and held outside by a number of Yaquis. Their guns were taken from them, and the Yaquis also took guns from Americans who attempted to interfere with them. There were a number of serious cutting affairs, but no one was killed. The Americans set about to quiet the Indians and sober them, and with the assistance of the Mexican cavalrymen, were successful in quelling the drunken rebellion.

Creek Trouble Ended.

Henrietta, T. T., Feb. 1.—Peace among the warring Creeks has apparently been reached, and all that now remains to be done is to give Chitto Hajo, the chief Snake, who has caused all the trouble, a preliminary hearing and send him to Muskogee for trial for treason. In the meantime a few more of the minor leaders will be arrested and the troops of cavalry under Lieutenant Dixon will probably remain here a few days longer, until the last vestige of an uprising has disappeared. Last night the Indians burned signal fires on the hills surrounding the town, and, fearing an attack, the soldiers remained up until daylight, armed and ready for instant action, but the Indians attempted no depredations.

Berlin, Feb. 1.—According to the Berlin Post, eight new German warships will be placed in commission this year, including the battleship Wilhelm der Grosse, with a displacement of 11,152 tons; the twin vessel Kaiser Brabros and Kaiser Karl der Grosse, the cruiser Prinz Heinrich, with a displacement of 8,081 tons, and four small cruisers, each of 2,600 tons. He claims to have served in the Boer army, and says he was taken prisoner by the English, but escaped on a Portuguese sloop while on the way to St. Helena.

CHARGE OF TREASON

Petition Filed Against Delegate Wilcox, of Hawaii.

SOME SENSATIONAL LETTERS SHOWN

Offered His Services to Aguinaldo to Fight Against the United States—His Election Was Illegal.

Washington, Feb. 4.—A petition containing charges was submitted to day to the house committee on elections No. 1, against Delegate Robert W. Wilcox, the Hawaiian representative in the house of representatives. The charges are made in writing by George D. Gear, of Hawaii, who submitted letters purporting to be copies of letters written by Wilcox to Filipino officials. The alleged letters are of a highly sensational character.

One of the letters said to be written by Wilcox is given in duplicate. It is dated Honolulu, January 31, 1899, and addressed to Dr. J. Joseph Losada, Captain Marti Burgos and Senor J. Luna, and introduced to them a "friend of mine who is a very able man to help you in your cause."

"Mr. — will be a useful ally to fight for the cause of the Philippines. One thing is sure, that you could resist any army of invasion—you have a population of 12,000,000 and already a disciplined army of 30,000 will be equipped with modern arms. I have already made up my mind to join with you in your country against America in case they insist to ignore the right, the justice of your cause. I know well my profession as an artillery officer. I have no fear of the whole world when I fight for a legitimate cause like yours. Between General Aguinaldo's determination and myself, it will be but a very little chance left to the invading army of the United States to conquer your country. Tell General Aguinaldo that I am already giving my service for your country and I am ready to obey orders to go to your country and fight for the independence of your people and country at any moment."

The letter bears the alleged signature of Robert Wilcox.

Another letter dated Honolulu, March 8, 1899, says:

"I am thinking of going to the Philippine islands and give my assistance to Aguinaldo against the invaders—the hypocritical Yankees, the carpet-bag politicians."

Mr. Wilcox declined to make any extended answer to the charges filed by Mr. Gear. He says he has no fears of the charges made. He admits that he wrote a letter to Dr. Losada, Captain Burgos and Senor Luna C. Caesar Moreno, an Italian of this city, whom he had known while the latter was in Hawaii in the '80s. Moreno had a meteoric career in Hawaii. For a few days he was secretary of state. Wilcox says Moreno is the person to whom the undated letter filed by Mr. Gear was addressed, but says he was unable after a cursory examination to say whether the letters filed were exact copies of those he sent.

The petition of Gear recites that there was no election machinery when Wilcox was elected delegate, November 6, 1900, and that many voters did not believe that a valid election could be held without it and therefore, made no attempt to vote. The petition then brings forward personal charges against Wilcox, relating to his marriage and also to his career, under the kingdom of Hawaii. It is also alleged that Wilcox, in his speeches prior to the election, made use of anti-American utterances for the purpose of carrying the election, telling the native Hawaiians that the Americans had stolen their country and that a vote for him was a vote for the restoration of the queen, and that, if he were elected, the queen would be restored; that Wilcox was and is guilty of treason against the United States, in that he did, as petitioner is informed and believes, since the annexation of said Hawaiian islands, write and send through the United States mails letters highly treasonable in their nature, wherein he did counsel and incite others to engage in open rebellion against the United States, and did offer his services to General Aguinaldo to go to the Philippines to fight and engage in open rebellion against the United States, copies of which letters are herewith filed.

Kansas City Theater Fire.

Kansas City, Feb. 4.—In the total destruction by fire last night of the old Coates opera house an aggregate loss of \$150,000 was suffered. The building was valued at \$75,000, the furniture at \$50,000, and the property of the Walker Whitehead Company, which had just begun a week's engagement, at \$25,000. The opera house and contents were insured for but \$40,000, while Whitehead carried absolutely no fire protection. Mr. Whitehead lost, in addition to his trunks and properties, several valuable manuscripts that were to have been produced shortly.

Helen Gould's Gift.

New York, Feb. 4.—The statement is published here that Miss Helen Gould has given \$400,000 for the land, building and equipment of a home for a naval branch of the Young Men's Christian Association.

Rumor of Earl's Death.

London, Feb. 4.—The Tien Tsin correspondent of the Standard, writing Thursday, says it is rumored in Tien Tsin that Li Hung Chang is dead.

ONLY FOUR BIDDERS.

Contracts Will Go to Newport News, Bath Works and Neale & Levy.

Washington, Feb. 4.—Bids for the construction of three protected cruisers were opened at the navy department today.

The attendance of bidders was neither as large nor as representative as in the case of the last opening. It is doubtful if the Cramps or the Union Iron Works have been unrepresented before in any bidding since the birth of the "new navy." One of the Moran Bros., of Seattle, was the solitary representative of the Pacific coast interests, but did not bid. There were only four bids in all.

The first bid opened was that of the Newport News Shipbuilding Company. They offered to build a 5,700 ton cruiser with a speed of 22 knots in 36 months for \$2,741,000. The Bath Iron Works offered to build a cruiser of the same proportions for \$2,750,900. The William B. Trigg Company, of Richmond, offered to build one cruiser for \$2,780,200, being the limit of cost fixed by congress, or two cruisers for \$5,480,000. The last bid was the lowest, and was submitted by the Neale & Levy Shipbuilding Company, of Philadelphia. It offered to build a cruiser on the department's plan in 36 months for \$2,740,000.

These cruisers are designed to be the most formidable vessels in the world of their class. They will resemble closely the type of second-class armored cruisers and might be easily mistaken for such. The act of congress authorizing this class of cruisers states that the vessels should carry "the most powerful ordnance for vessels of their type, and have the highest speed compatible with good, cruising qualities and great radius of action." Admiral Hiebhorn, chief constructor of the navy, who has been foremost in the preparation of plans for the building of the "new navy," says that in an engagement the new cruisers would be able to cope with and prove more than a match for some of the armored cruisers of foreign navies.

The new vessels are to be named the St. Louis, the Milwaukee and the Charleston, the last to continue the name of the ship wrecked November 2, 1899, in the Philippines.

THE NEW YORK FIRE.

Caused by an Explosion of Chemicals in the Wick Factory.

New York, Feb. 4.—The extent of the destruction wrought by the conflagration which destroyed nearly a whole block of buildings at Thirty-first street and First avenue last night could be better appreciated this morning. The huge factory of the William Wick Company was almost level with the ground. Contractor Joseph Cody, of the building department, with a force of 100 men, had labored at the ruins all night pulling down dangerous sections of the walls.

Other property destroyed was the six-story building, numbers 404, 406 and 408 East Thirty-second street; the five-story tenement at 546 and 548 First avenue; the five-story tenement at 462 East Thirty-first street; Jackson's iron foundry and a two-story brick building on Thirty-first street, occupied by the Swift Dressed Beef Company. About 70 families were rendered homeless by the burning of the tenements.

Fire Chief Croker said today he believed the fire was caused by an explosion of chemicals in the Wick factory. He was informed that a watchman had gone into the vault in the cellar with a light and that the vault contained the explosives. The chief added that he did not know what had become of the watchman or who he is. He said the explosion that started the conflagration might have been caused by illuminating gas getting into the cellar from the gas main, but he did not think this was the case.

Policemen Thomas J. Fitzpatrick and John B. McMullin, who were on duty at the fire, are reported missing today.

BATTLE IN ABYSSINIA.

It is Supposed the Chiefs Rebelled During the Absence of Menelik.

Paris, Feb. 4.—A dispatch to the Francis from Cairo says news has been received there from Abyssinia of a great battle in which 7,000 were killed. It is supposed the chiefs rebelled during the absence of King Menelik, who has gone to the Egyptian frontier in connection with the delimitation of the Egypto-Abyssinia frontier.

London, Feb. 4.—A dispatch to the Exchange Telegraph Company from Cairo says severe fighting is reported in Abyssinia. The casualties are said to number 7,000.

The foreign office officials know nothing of any difficulty in King Menelik's territory, but it is not unlikely they think that certain malcontent chiefs may have taken advantage of King Menelik's absence from the capital to foment an insurrection.

Belgium Has No Navy.

The nightwatchman had been keeping close watch on a suspicious character who was about town, and he is quite certain that this man was his assailant.

The city of Seaside is amending its charter so as to give them a franchise, and the county court will grant them the right to lay pipes across the county bridge over the Necanicum. The source of water supply is in the hills about two miles east of Seaside, which has been secured, as well as the site for the reservoir and the right of way for the piping. The supply of pure mountain water is estimated at seven million inches, which is much more than necessary at present and it can be doubled at very little expense. The cost of construction of the plant will not be great, so the service will be a relatively cheap one for the consumers.
